*Proceedings of the 2nd International Meeting on  
Problems of Compilation of Input-Output Tables,  
Organized by the Austrian Statistical Society,  
Baden near Vienna, Austria, 13-19 March, 1988*

EDITED BY ALFRED FRANZ AND NORBERT RAINER

Vienna: Orac, 1989, p. 454, ISBN 3-7007-0046-6

The Austrian Statistical Society announces the publication of the Proceedings of the 2nd International Baden-Meeting on Problems of Compilation of Input-Output Tables. The volume contains twenty-one papers covering the full spectrum of compilation aspects organized in four main topics:

- Layout of table frameworks
- Integration of Input-Output in national accounts
- Balancing Input-Output tables and some special applications
- Secondary production and technology assumptions.

The papers are summarized in the introduction of the editors. Also included are tentative conclusions of the meeting with respect to the ongoing revision of the SNA 1968.

The volume may be obtained from Verlag Orac, Graben 17, A-1010 Vienna. The price is AS 680,-.
