

ANNOUNCEMENTS

NANCY RUGGLES MEMORIAL FUND

As announced in the December, 1991, issue of *The Review*, the Trustees of the Nancy Ruggles Memorial Fund are now reviewing submitted papers in order to award the first Travel Grant to financially assist a selected candidate to attend the IARIW General Conference to be held in Flims, Switzerland, August 30 through September 5, 1992.

At present, the total amount of the funds stands at \$13,780. This is enough to assist one candidate. The goal for the fund is \$30,000. At that level, the Fund will be self-sustaining and will support an award to two candidates for each General Conference.

At this time, the Association would like to formally thank the following members for their generous contributions in honor of Nancy Ruggles. The contributors are, in chronological order:

Utz-Peter Reich	Michael Taussig
Carsten Stahmer	Bent Thage
Antonio Giannone	Sir Jack Hibbert
Lady G. Stone	Guy Orcutt
Helen Stone Tice	John C. Dawson
Irving B. Kravis	Russell Krueger
Pertti Marjomaa	Akimasa Katsora
Graham Pyatt	J. D. N. Nartey
Joseph Quinn	Eduardo Libreros-Davila
Markku Suur-kujala	and Marion Libreros
John R. Norsworthy	André Vanoli
Martin Murphy	Anne Harrison
Alan Heston	Shirley Carter
Joel Popkin	Robert Summers
Christopher T. Saunders	P. Mandler
Roger Gentile	Hiroshi Izumi
S. H. Khamis	Dorothy Walters
Hiroshi Nakamura	F. Thomas Juster
Y. Kurabayashi	G. Stuvell
Margherita Carlucci	Noboru Mitsudo
Lennart Fastbom	Jenny Podoluk
John Kendrick	Marcellin Dayer
James R. Nunns	Jeffrey Round
John Boreham	Bruce Klein
L. Urdaneta de Ferran	Heinrich Lutzell
Bernardo Ferran	Alberto Fracchia

JOURNAL EXCHANGE
STATISTICAL JOURNAL OF THE UNITED NATIONS
ECONOMIC COMMISSION FOR EUROPE

Aims and Scope

The aim of this *Journal* is threefold:

- to inform the professional world of statisticians, whether involved with theoretical or practical problems, of work related to that of the Conference of European Statisticians
- to establish a forum for critical discussion of the entire range of problems—organizational, methodological, analytical or conceptual—facing statistical services; and thereby
- to facilitate high quality in the future work of the Conference.

It should be noted the papers accepted for publication do not necessarily deal with problems of European and North American statistical services. Contributions dealing with related problems as experienced in other countries are encouraged.

The *Journal* covers five major areas of statistical work:

1. Regional and international statistical co-operation
2. Organization and operation of statistical services, including problems of electronic data processing
3. Methodological development and harmonization of economic statistics
4. Methodological development and harmonization of social and demographic statistics
5. Development and harmonization of environment and related statistics.

Reports on novel methodological approaches, analytical papers with a clear statistical content, and conceptual proposals for the solution of existing difficulties are typical subjects for contributions in each of the major work areas.

Prospective contributions should be addressed to the Editor-in-Charge.

Editor

G. Hinterregger, Executive Secretary, Economic Commission for Europe,
Palais des Nations, CH-1211/Geneva 10, Switzerland

Editor-in-Charge

A. Maurer, Statistical Division, Economic Commission for Europe, Palais
des Nations, CH-1211/Geneva 10, Switzerland

Board of Associate Editors

S. Apelt, M. S. Avadhani, J. L. Bodin, J. Bakkes, B. Camus, D. J. Dodds, L. Fastbom, W. J. Keller, J. Kordos, V. V. Martynov, K. Neumann, J. Reinisch, L. Ricci, A. Ruiz, L. Sanchez-Crespo, W. S. Saraf, R. Shanmugam, S. S. Srivartava, Ms. G. Vukovich

Subscription information

The *Statistical Journal* of the UN Economic Commission for Europe is published in one volume of four issues a year. The subscription price for 1991 (Volume 8) is NLG 350 + NLG 30 p.p.h. = NLG 380. Our p.p.h. (postage, packaging and handling) charge includes surface delivery of all issues, except to subscribers in the following countries where air delivery (S.A.L.—Surface Air Lifted) is ensured: Argentina, Australia, Brazil, Canada, China, Hong Kong, India, Israel, Japan, Malaysia, Mexico, New Zealand, Pakistan, Singapore, South Africa, South Korea, Taiwan, Thailand, U.S.A. For the rest of the world airmail charges are available upon request. **Mail orders and inquiries to: IOS Press, Van Diemenstraat 94, 1013 CN Amsterdam, Netherlands.**

ILO BULLETIN OF LABOUR STATISTICS

The *Bulletin of Labour Statistics* is published quarterly, with Supplements in the intervening months. It presents monthly and quarterly series on employment, unemployment, hours of work, wages and consumer prices from national official statistics.

A separate edition of the *Bulletin* is published towards the end of each year with the results of the ILO October Inquiry, an annual survey of wages and hours of work in 159 occupations and of retail prices for 93 food items.

The regular quarterly issues of the *Bulletin* usually include one or more articles of methodological interest in the area of labour statistics.

Recent articles published in the *Bulletin of Labour Statistics* are:

1991-1

Collecting traditional labour force data through modern techniques—The case of the Swiss Labour Force Survey (B. Buhmann and R. Hussmanns)

1991-2

La mesure du niveau d'instruction de la population active dans les Enquêtes auprès de la main-d'oeuvre (M. Imbert)

1991-3

- (i) The unemployed in administrative statistics and in the labour force survey in Finland (A. Laihonon)
- (ii) Registered unemployed and labour force survey unemployed: Comments and Danish experiences (V. L. Nielsen)

1991-4

ILO-comparable employment and unemployment estimates: updated results and methodology (I. Chernyshev and S. Lawrence)

The majority of articles are written in English with a short summary in French and Spanish.

Editor: Ms. Hazel Bennett, Bureau of Statistics, ILO, 4 route des Morillons, CH-1211 Geneva 22, Switzerland.

JOURNAL OF POPULATION ECONOMICS

ISSN 0933-1433 Title No. 148

Editors: A. Cigno, Pisa; J. Ermisch, Glasgow; P. Pestieau, Liège; B. M. S. van Praag, Rotterdam; K. F. Zimmermann (*Managing Editor*), Munich

The *Journal of Population Economics* is an international quarterly in which articles dealing with broadly defined relationships between economic and demographic problems are published, equally emphasising theoretical and applied research.

Topics covered are; at the micro level, household formation, fertility choices, education, labor supply, and migration; at the macro level, economic growth with exogenous or endogenous population evolution, population policy, savings and pensions, social security, housing, and health care, and also papers covering policy issues or development problems. The *Journal of Population Economics* is a forum for the study and discussion of these problems for economists, demographers, sociologists, and researchers from other disciplines.

The *Journal of Population Economics* is the official organ of the European Society for Population Economics. For further information please contact: Prof. Dr. Klaus F. Zimmermann, University of Munich, Ludwigstr. 28 RG, W-8000 Munich 22, Germany.

Subscription Information:
Vol. 5 (1992, 4 issues)

North America: US \$149.00 (suggested list price) including carriage charges.

All other countries: DM236,- (suggested list price) plus carriage charges:
Germany-DM7,06; other countries-DM13,40

Recent articles published in the *Journal of Population Economics* are:
Volume 4 (1-4)

- O. Galor, O. Stark: The impact of differences in the levels of technology on international labor migration
- S. Berninghaus, H. G. Seifert-Vogt: A temporary equilibrium model for international migration
- J. L. Simon, G. Steinmann: Population growth, farmland, and the long-run standard of living
- T. Abeyasinghe: On testing Easterlin's hypothesis using relative cohort size as a proxy for relative income—An analysis of Canadian data
- P. S. Carlin: Home investment in husband's human capital and the wife's decision to work
- E. Drissen, F. van Winden: Social security in a general equilibrium model with endogenous government behavior
- D. E. Wildasin: The marginal cost of public funds with an aging population
- D. Blanchet, D. Kessler: Optimal pension funding with demographic instability and endogenous returns on investment
- W. Peters: Public pensions in transition—An optimal policy path
- K. F. Zimmermann: Ageing and the labor market—Age structure, cohort size and unemployment
